**ECOSYL**

PROVEN  
BENEFITS

Both liquid and dry granular applications contain the high performance MTD/1 strain of *L.plantarum*. Reliability supported by over 150 independent published trials\*. Rapidly produces lactic acid for faster fermentation and lower pH. Improves fermentation of alfalfa, corn and grass silages. Reduces protein breakdown - lower ammonia. Guaranteed to deliver 100,000 MTD/1 bacteria per gram of forage. Easy to store, handle, prepare and apply.

\*Unlike many inoculants, the MTD/1 bacterial strain exclusive to ECOSYL is independently proven and trial results are in the published scientific record.

50T  
200T  
400T  
800T

Water soluble silage inoculant for liquid application to corn, grass, alfalfa, high-moisture corn, sorghum and all small grain cereal forages.

50T  
Dry  
Granular

Granular silage inoculant for dry application to corn, grass, alfalfa, high-moisture corn, sorghum and all small grain cereal forages.

ECOSYL is a registered trademark of ECOSYL Products, Inc.
